The Western Air Limbach team understands that working with minority and women owned business partners makes prudent business sense. Utilizing minority and women-owned businesses fosters competition, enhances vendor performance maximizes cost efficiencies, brings new ideas and technologies to the table and strengthens our pool of specialized resources.

Our strategy is to encourage and provide as many subcontractor and sub consultant opportunities as possible to MBE/WBE/DBE/DVBE's.

The work to be performed will be the following: PCAC Chiller Room including equipment, piping and commissioning. HVAC Equipment including fans, packaged units, and VAV terminals.

Ductwork with insulation and diffusers/grilles. Piping with insulation and equipment/accessories. Testing, balancing, and commissioning of all systems. Complete BMS controls.

Temporary and permanent cooling towers, heating hot water boilers, chemical treatment system, connections to building systems, automatic make-up water controls and associated work. Chillers, check-test, startup with control programming assistance. Removal of all temporary heating and condenser water equipment along with the removal of all temporary chilled water equipment

Plans and Specifications and copies of the bid proposal are available for review at our office address above.

Western Air Limbach LP will require all subcontractor to be prepared to furnish 100% Payment and Performance Bonds from a California admitted surety acceptable to Western Air Limbach.

*An Equal Opportunity Employer*
