

POSITION AVAILABLE PROJECT MANAGER

Myers and Sons Construction is a heavy highway concrete and bridge contractor located in Sacramento, CA with projects though out the state. Ninety Percent of our projects are Caltrans projects, where we act as either the general contractor or as a subcontractor.

We are currently seeking a experienced project manager to manage several projects within California.

This person will work closely with the General Superintendent, Chief Estimator and ownership to ensure that the projects are managed correctly and the work is performed in a efficient manner. This person must be able to handle a large workload and be willing to put in the hours needed. This person must have a complete understanding of Caltrans standard specs and the processes Caltrans requires of their contractors.

Requirements: Must have experience working on Caltrans projects as a project manager for a prime or sub contractor. Must be able to put together a critical path schedule in Primavera.

Preferred: Experience with HCSS estimating software or experience estimating is a plus. A PE license is a plus. Experience with Viewpoint accounting and/or project management software is a plus.
